<p>With the help of our webhost's tech support, I was able to migrate our forum to our new host and upgrade it soon after.</p><p>The old forum is locked, but that's okay.◆ The old site will remain for a while until I am able to finish building up this site a little more.</p><p>I apologize for the mess that still exists.◆ I do want people to participate in the website as well as the forum.</p><p>So look for further improvements in the coming weeks. In the meantime, please to enjoy...</p>
